Carbon Reduction Plan

Supplier name: Hughes and Salvidge Ltd

Publication date: 19.05.2026

Commitment to achieving Net Zero
Hughes and Salvidge Ltd is committed to achieving Net Zero emissions by 2050.

Baseline Emissions Footprint
Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2021/22	
Additional Details relating to the Baseline Emissions calculations.	
Hughes and Savidge Ltd were the first demolition contractor to achieve a carbon standard recognition, which has allowed the company to monitor and manage its carbon footprint moving forward. In the financial year of 2021/22 Hughes and Salvidge Ltd obtained a carbon reduction certification through a partnership with Achilles, which would become the baseline for carbon emission reductions. The majority of the company's emissions come through scope 1 (direct emissions) due to the volume of fuels needed to power a variety of machinery necessary in the demolition industry.	
Baseline year emissions: 2022/21	
EMISSIONS	**TOTAL (tCO_2e)**
Scope 1	**4,411.84**
Scope 2	**9.16**

Scope 3 (Included Sources)	**0.81**
Total Emissions	**4,421.81**

Current Emissions Reporting

Reporting Year: 2025/26	
EMISSIONS	**TOTAL (tCO_2e)**
Scope 1	**5,426.63**
Scope 2	**20.97**
Scope 3 (Included Sources)	**98.32**
Total Emissions	**4,429.63**

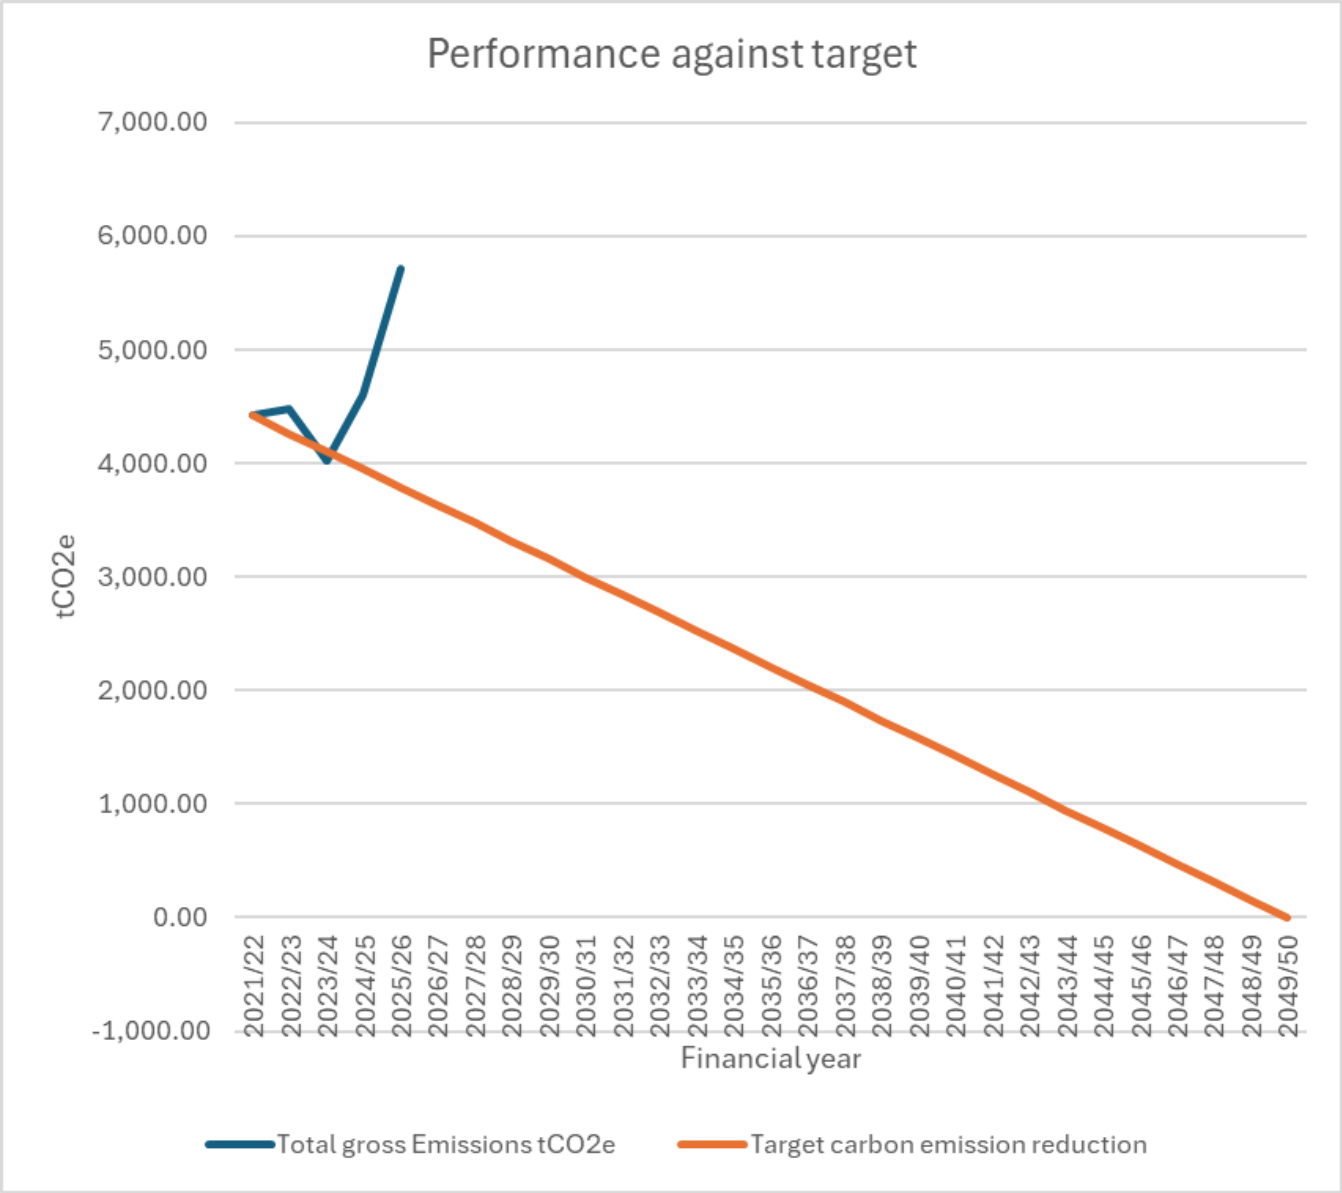
Emissions reduction targets

Hughes and Salvidge Ltd will become Net Zero by the year 2050.

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 3,158.44 tCO_2e by 2029/30. This is a reduction of 28.42%

Progress against these targets can be seen in the graph below:



Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2021/22 baseline. The carbon emission reduction achieved by these schemes equate to 1,253.73 tCO_2e, a 28.42% reduction against the 2021/22 baseline and the measures will be in effect when performing the contract.

The carbon reduction certification by Achillies meets the standards of ISO 14064 Part 1, in addition to this Hughes and Salvidge Ltd hold a ISO 14001 – 2015 Environmental Policy which is promoted and controlled through an Environmental Management System.

For further carbon emissions, the following have started to be implemented in the company to start carbon reductions:

- The introduction of Hydro-treated Vegetable Oil as a replacement for diesel for plant and machinery.
- Internal demolition to be powered by electricity when possible.
- Switching all management vehicles to electric or hybrid
- Introducing site operatives' vehicles to electric or hybrid
- Introducing solar, electric or hybrid welfare units

Future carbon reduction initiatives

In the future, we hope to implement further measures such as:

- To run all plant and machinery on Hydro-treated Vegetable Oil
- All work vehicles to be electric
- On-site welfares to be solar or electric
-

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance and reporting standards for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard[1] and uses the appropriate Government emission conversion factors for greenhouse gas company reporting[2].

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard[3].

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
